**ANIMALS**  
FOR  
H★LLYWOOD

To Whom It May Concern:

My Company, Boone's Animals For Hollywood, Inc., worked with Jamie Robertson on the DreamWorks feature "Paulie". Jamie was the Visual Effects Supervisor on this film and without his experience and guidance, a project like this would have been most difficult. His knowledge helped us make our birds come to life on the big screen. He was always there to help us out when the going got tough. I would highly recommend him and will do so for any of our future projects that involve my animals and the use of Visual Effects. Please don't hesitate to give us a call if a verbal reference would be needed.

Sincerely,

Boone Narr
